会议介绍/Brief Introduction

今年的IND EX[®]工业防爆大会重点关注的是目前中国的粉尘爆炸安全形势, 并寻求提供有趣的方法和解决方案, 以支持中国在工业防爆安全之路的发展。中国, 在过去的几年中, 通过建立新的标准并严格执行, 朝着更安全的未来迈出了巨大的步伐。因此, 我们特别希望通过这次研讨会, 就中国粉尘爆炸安全问题, 与协会的会员、专家和工程师进行积极讨论和交换意见。IND EX[®]旨在通过这个会议为全国工业工厂的操作和过程安全做出贡献。

This year's IND EX[®] Symposium is focusing on the current dust explosion safety situation in China in particular and seeks to provide interesting approaches and solutions in order to support China on its way to industrial explosion safety! China during the last years has made huge steps towards a safer future, by setting up new standards and also rigorously enforcing them. Therefore, we would especially like the symposium will focus on an active discussion and exchange of ideas between its members, experts and engineers facing dust explosion safety issues here in China. By this IND EX[®] intends to contribute to work and process safety in industrial plants all over the country.
